

CYNOSURE®

Apogee⁺

Aesthetic Workstation

NEW High Power and Speed

Apogee[®]

20 J/cm²

2 Hz

18 mm Spot Size

High-powered Apogee+ Alexandrite laser provides fast hair removal on a wide range of skin types as well as epidermal pigmented lesion treatment.

- Hair Removal
- Benign Epidermal Pigmented Lesions
 - Age Spots
 - Sun Damage
 - Freckles

 **\$8.4**
BILLION

Worldwide procedure fees for aesthetic laser treatments will reach over \$8.4 billion by 2014. Of that, \$2.4 billion is hair removal.⁵

Expand your revenue opportunity with this multipurpose, effective aesthetic workstation.

Optimal Wavelength... Now Even Faster

Apogee⁺ delivers power and speed options that provide up to 20J/cm² at 18mm spot size and 2Hertz. Given its high absorption by melanin, 755nm is the ideal wavelength for removing hair on skin types I-IV with clinically proven results⁶.

What's more, the Alexandrite wavelength offers superior efficacy in treating epidermal pigmented lesions such as age spots, sun spots and freckles.

.....

ENHANCE YOUR INVESTMENT

APOGEE+ CAN BE EASILY
UPGRADED TO THE ELITE+

Expand your practice's treatment offerings by adding the 1064nm Nd:YAG module for additional treatment options and more spot sizes to keep pace with evolving patient needs.

.....

Quick, Effective Treatment

- Apogee+ provides high fluence with large spot sizes for deeper penetration, faster procedures and optimal results.
- Multiple spot sizes with adjustable pulse widths mean treatments can be customized to meet your patient's specific needs.
- Perform multiple treatments quickly on the same patient during the same visit for increased patient throughput and practice productivity.

System Type	Alexandrite
Wavelength	755 nm
Pulse Width	adjustable 0.5 - 300 msec
Maximum Fluence per Spot Size*	
18mm	20 J/cm ²
15mm	30 J/cm ²
12mm	45 J/cm ²
5mm	50 J/cm ²
Maximum Rep Rate [†]	3Hz
Aiming Beam	Red
Skin Cooling System	Cold Air - available separately
Electrical Requirements	200/220 VAC/30A
Height	41"x15"x25" (104 cm x 38 cm 64 cm)
Weight	180 lbs (82kg)

*Independent of pulse width [†]Adjustable continuous pulse or single pulse operation

Air Cooling System Available

Cynosure's SmartCool air cooling system for Apogee[®] further enhances patient comfort and decreases the likelihood of adverse side effects. Available separately.
